One of the reasons I chose dōTERRA® is because of their Cō-Impact Sourcing®. dōTERRA® sources its oils from all over the world so that each oil is derived from its indigenous environment. When they are grown and harvested in the proper altitude, climate, seasons, and soil, you end up with a far superior product. This is where dōTERRA®'s commitment to purity begins! Plus the dōTERRA® Cō-Impact Sourcing® initiative helps build communities around the world. Check out [this video](#) to learn more.

The second reason is that the oils are CPTG Certified Pure Therapeutic-Grade® (CPTG). This is REALLY important because every oil has ZERO fillers, synthetics, dyes, pesticides, or contaminants of any kind. They are just pure, unadulterated oils. dōTERRA® created this standard as a promise of purity and each and every batch is third party tested so you can be confident in not just their purity, but potency as well.

Aromatics, Topicals, Internal

Aromatic

Topical

Internal

1.) Aromatically

Put a drop in the palm of your hands, cup your hands to your nose and inhale - WOW!!!!
Diffusing is also a great way to get benefits from the oils. They can support respiratory functions and enhance moods.

2.) Topically

When you apply your oils to areas of the body that need support, they reach the bloodstream within 20 seconds and are then distributed throughout the body within 20 minutes. It's best to dilute the oils in fractionated coconut oil to avoid skin sensitivity and ALWAYS dilute for children.

The bottoms of the feet are a great place to apply the oils as it's the most porous section of the skin allowing for quick absorption. [Watch this amazing video](#) on how quickly oils absorb when you used on the feet. You can also apply on the back of the neck or along the spine.

3.) Internally

dōTERRA® is the ONLY brand of oil I would trust to use internally. Please do not assume it is okay to use any brand of oil internally as purity varies greatly. If safe for consumption, the bottle will clearly be labelled if it is approved for internal use. Once you are assured of quality, you can add one drop to your water or tea. I like any of the citrus oils for this as it helps me drink my daily recommendation of water.

One of my favorite Essential Oil recipes to help bring peace into my life is this protocol. If you are not emotionally strong on a molecular level, even a room full of your favorite things will bring you little joy. Find your bliss, joy, and excitement again with oils that inspire empowerment, trigger cherished memories, and create a newfound sense of emotional freedom.

Science has demonstrated that our diets are inadequate to provide the necessary levels of nutrients for optimal function. The fruit and vegetables our grandparents ate had more than 75% more nutrients than what we eat today. Even if you consume a ton of spinach every day, for example, it is impossible for you to get the nutrients you need from the food because the nutrients in that spinach has been depleted by pesticides, soil, and processing. Even the very best eaters need help with vitamins and minerals. For that reason, dōTERRA® has made available the Lifelong Vitality Supplements and you can have them conveniently shipped to your door at wholesale

The Lifelong Vitality Pack (LLV) is a daily supplement trio that lays a strong foundation for physical and emotional health. It provides an excellent source of minerals, micronutrients and healthy fats. Together, these 3 supplements provide us with the daily cellular support they need for us to FEEL GOOD, emotionally and physically:

- xEO MEGA provides 9 essential oils and omega fatty acids to the “3 brains”...supporting brain nourishment, heart and circulatory health, and digestive functioning.
- Alpha CRS+ contains potent antioxidants that promote chemical communication in cellular pathways.
- Microplex MVp is your vitamin and mineral supplement. It provides optimal levels of micronutrients for immune function and energy.
